

As a truck driver, I can rely on my satellite radio for up to the minute reports of weather concerns and traffic updates in the area I happen to be in. When at home I can also keep abreast of my surroundings with the same satellite information. Therefore, rather than be forced to keep close to 1000 radio call letters in my mind, or worse yet, just out of reach while driving, I need only tune to my satellite radio, and off I go.

This is a service I pay for, at my choice, and I would like to get what I pay for. Please REJECT NAB's petition 04-160 and allow the PAYING public to receive their programming.

Thank You
James R Flindt
